DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see page 11, 2nd paragraph, filed October 20, 2005, with respect to claims 1-20 have been fully considered and are persuasive. The objection to claim 7 and rejection of claims 1-20 has been withdrawn.

Allowable Subject Matter

2. Claims 1-22 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art does not teach nor render obvious a method for measuring dimensions of a first set of control patterns printed in a lithographic resist layers at two or more locations on or within each pattern that correspond to different optimum focus settings in combination with the rest of the limitations cited in the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following discloses an optical metrology system to

examine a structure on a surface: Bischoff (US 2004/0239954) and Yoshitake et al (US 2003/0121022).
